ABOUT US

Everybody has a story (EHAS) is a non-governmental organization that aims at helping others share their experience from their true life stories. Experiences which many may have harbored for years. Experiences which will make people learn and not make mistake while dealing with similar issues later in life.

EHAS was birthed due to

- ❖ The secret cries of others.
- ❖ The burden of people wanting to help others not to fall victims of same mistake(s) they made.

- ❖ The regret(s) many had and want to share but are unable to share
(stigmatization)
- ❖ The need to have a stable mental health, which is part of the SDG goal (SDG 3.4 [Promoting mental health](#))

OUR VISION

OUR MISSION

- ❖ To relieve the burdens in others
- ❖ To put smile on others face
- ❖ To give voice to those who are hurt
- ❖ To create a sustainable platform where people learn and know that beyond what happens, there is hope.
- ❖ To make people not to make mistake as they learn from people's experience
- ❖ To ease mental stress/disturbance off others
- ❖ To give hope to others

OUR CORE VALUE

- **Believe:** We believe everyone has gone through somethings that made them who they are. And thus, we believe they can be a better person.
- **Integrity:** We all at EHAS are determined to be true to the course which we are called for - "To relieve others burden"

- **Support:** To support impactors in having a good mental health

OUR LOGO

The head looking up gives a reason to believe and continue to believe in ones self,

The arrows signify that whatever we learn will help give direction to our life.

OUR OPERATION

At EHAS, we have two categories of people which will be part of the organization. They are who we called:

❖ The Impactors

These are the people who have stories to tell. People who are willing to make people learn from their experience and make good use of it. We don't want to call them victims but rather impactor. Reason being that, we are here to relieve them of their past and not reminding them of what they've been through. The word Impactor will give them a sense of belonging if at all they had lost it. So people in this aspect will be called Impactor Dave, Impactor Ada, Imp. Hassan, Imp. Bolanle etc.

❖ The Listeners

This are people who are ready to learn and not mock the impactors. People who are ready to hear experiences and regrets of people to help develop them and the country.

EHAS will be having meetings/talks twice a month (for a start) which will be posted on any of our platform as requested by the talker. The meeting will be held sequentially on WhatsApp and Twitter respectively.

OUR RULES AND REGULATION

This will be compiled by the intellect and impactors, to make sure every impactor is ok and fine in the process of relating to the listeners and their fellow impactors.

OUR PLATFORMS

For a start we will be having four (4) platform before expanding to other platforms. The following are the platforms on which we will be operating on and how we will be operating.

❖ WhatsApp

Here we will have two platforms. One for the Impactors and the other for the listeners. The Impactors group is created to help impactors communicate with one another on a level which they can't communicate to with the listeners. This group will be opened once a week or as the case may be. While the listener group is meant for the impactors to tell their stories, experiences and regret to the listener once a month. This is to make sure the listener doesn't think that we are fabricating stories, but to know that the stories are true and real.

❖ Twitter

This platform is meant for people who are on the impactors WhatsApp group but want to remain anonymous and people who want to remain anonymous totally. We will be having out our second meeting on this platform.

❖ Gmail

This are for impactors who are not willingly to show themselves on our Impactors WhatsApp platform, people who want to remain anonymous. This platform is meant for them to send their story and we help publish it on our various platforms as requested by the impactor.

❖ Website/blog

On this platform, we will be publishing articles relating to human relationship etc. and stories, experiences and regrets of impactors (with the impactors consent).

OUR FUTURE DREAM

- ❖ Physical meeting of Impactors at designated areas.
- ❖ Visit to primary and secondary schools

- ❖ Mental doctor counseling with impactors

OUR TEAM

Different personnel will be working together to make sure this initiative works as planned. People in this category are referred to as Intellects.

❖ INTELLECT OLABISI AYOMIDE (Saar_haywhy)
